DISCIPLINE OF OTORHINOLARYNGOLOGY (ENT)

To the 4th-year Dental Medicine students:

- The final examination consists of a **multiple-choice test of 20 questions** (60% of the final grade), a **practical exam** (30%) and the **activity during the semester** (10%). The **minimum passing grade is 5**, for both the theoretical and the practical exam.
- Students are required to fulfil the **minimum practical quota**, which is a **necessary and compulsory condition** for admission to the practical exam. This includes: identification of the ENT instruments; history taking and ENT clinical examination of a patient, recorded in a clinical observation sheet; correct and safe performance of rhinoscopy, oropharyngoscopy, indirect laryngoscopy and direct otoscopy.
- **Absences** may be made up ONLY during **the last 2 weeks of the semester**, at the ENT Clinic (County Clinical Emergency Hospital of Craiova, 4th floor), according to the schedule posted by the discipline.

The conditions for admission to the exam in the January-February 2027 session are:

Fulfilment of the minimum practical quota,

100% attendance at practical classes,

or full recovery of absences.

- **Students who accumulate up to 3 absences during the semester** (the maximum number of absences that can be made up) are required **to fully make them up**. If the minimum practical quota is also fulfilled, they will be allowed to sit for the ENT exam in the January-February 2027 session.
- **Students who accumulate more than 3 absences during the semester will NOT be allowed to take the exam in the academic year 2026–2027 and will be required to repeat all academic activities of the discipline (lectures, practical classes and practical quota) in the following academic year.**
